

You Can Work Near a Window

in winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

THE YOEMEN.

The Brotherhood of American Yoemen issues a combined life and accident certificate to men and women alike, making it possible for a family to join the same lodge, attend all its meetings and equally participate in all benefits of the society.

It is purely representative in its government. The society holds its charter and is organized under the laws of Iowa—whose insurance statutes are recognized as being the best laws in existence for the protection of policy holders.

The society has a reserve fund which may be drawn upon to pay death losses in excess of six for each thousand benefit members in good standing in any one year, thus guaranteeing a low cost to members.

It issues a splendid, newsy, monthly magazine, which goes to each member free, and in which all official transactions of supreme officers are given, and matters of interest are printed.

It levies twelve assessments each year, and issues certificates for \$500, \$1,000, \$2,000 and for \$3,000.

Here Is Our Plan.

Two men, 43 years old, each secure a \$2,000 policy. Their annual rate is \$18.60 per year. That rate is fixed on the basis of each one living 26 years, because that is their expectation of life. On the average all men 43 years old will live 26 years longer. So we rely on receiving \$18.60 from each of these gentlemen for 26 years. We must have this sum for that time or we must have a higher rate. A Yoeman policy with a man 43 years old is an agreement stipulating for said amount for said time, no matter whether the policy holder lives the time out or not.

Should one of these men die soon after receiving his \$2,000 pol-

icy, we simply deduct from the face of his policy the \$18.60 for the balance of the 26 years.

If death occur at the end of the first year the deduction would be \$465, and the balance, \$1,535, be paid to the beneficiary. The \$465, deducted would be placed at interest, and at 4 per cent simple interest will yield exactly the \$18.60 we counted on receiving from this member at the beginning of the transaction.

If he pays his assessment of \$18.60 ten years and dies, the deduction is for 16 years, and so on. Remember, too, that we add to the original value of his certificate all his monthly payments until the certificate reaches its face value.

Funds Absolutely Safe

No state in the union has more rigid insurance statutes than has Iowa.

Her insurance laws, under which the Yoemen is incorporated, provide that reserve fund securities must be deposited with the Auditor of State. Also that all our Mortgage Loans and Bonds must be approved by the State Auditor before the loan is legally made from the reserve fund.

This new law, enacted in 1907, gives additional security to the funds of the Yoemen, and assures our policy holders that our sacred reserve fund shall always be kept intact to be used for the purpose for which it was created.

This makes Yoemanry popular wherever it is introduced. In Iowa, where our society is best known, more than 30,000 people carry protection in this Society.

How We Help The Living—Accidents.

Don't you know that accidents are constantly increasing? This strenuous life and age is the cause of the increase. Should you be unfortunate and meet with an accident, the Yoeman Society

comes to your aid when you need it most, and advances to you on your certificate the following cash benefits, less the proportionate amount of the expectancy deduction for the reserve fund:

As one of my relatives had been greatly benefitted by Doan's Kidney Pills, I got a box from the A. & A. Drug Co. and began their use. They helped me right away, and I am now enjoying much better health. I shall always be glad to recommend Doan's Kidney Pills when the opportunity occurs." (Statement given Mar. 28, 1907.)
